VISCOUNT WHITE

GRANITE

INDIA

VISCOUNT WHITE

Description

Viscount White is an Indian granite with a white background, almost pearly, filled with very small black and silver spots. It features a combination of greys with waves of white and grey minerals. The stone has an overall grey appearance, but the background is actually an icy white. Viscount White's pale grey hues can be beautifully harmonized with white cabinets. The salt and pepper in the stone procure elegance that transpires sophistication and chic all in one and renders it an ideal choice for today's trendy decors.

India has several granite quarries, divided into two large territories: north and south. The main granite reserves are found in the states of Rajasthan, Andhra Pradesh, Kamataka, Tamil Nadu and the new state of Telangana.
